BLOODY WAR IS AVERTED

Guatemala's Pacific Reply to Mexico's Demands.

AGREED UPON A COMPROMISE

The Terms of the Convention Are of Farreaching Importance to the Central American States Which Expected to Be Plunged Into a Conflict-Active War Preparations Are Now at an End.

From unofficial advices reaching Wash ington the general terms of the agreement signed Monday, by which war between Mexico and Guatemala was averted, are substantially known.

Mexico's demands were in the form of an altimatum sent by Secretary Mariscal on November 27, embracing the following

First-Mexico asks satisfaction for in juries received by the invasion of her territory and for the vexations of which foreigners and Mexicans cutting wood in the forests of Agu Azul, Egipto, San Nicholas, and San Pedro, and the Mexican residents of Ayutia have been the object. Second-Mexico also demands a pecuniary second—Mexico also demands a pecuniary indemnity for the damands sustained.

Third—Mexico also demands indemnity for the expense of the mobilization of her forces and of situating authorities and employes in suitable places for public security on the frontier.

It was pacific in tone, but did not concede Mexico's right to the territory designated in the ultimatum, nor to tory designated in the ultimatum, nor to the right of a fixed cash indemnity. The final negotiations are a compromise be-tween the ultimatum and reply. It is be-fleved that Mexico has agreed to arbitrate the amount of cash indemnity, instead of

exacting the \$2,000,000 first claimed. DIPLOMATS ARE SILENT. Benor Romero, the Mexican minister, but neither he nor Senor Arriaga, the Guatemalan minister, are yet in a position to make public the exact terms on which war was averted. President Diaz has amounced that the terms would be communicated to Congress later.

The peace agreement is regarded as of far-reaching importance to the Central American States, which have expected for the last six months to be plunged into a bloody struggle. The agreement now
